## PROFESSIONAL SUMMARY

---

Computer Science Engineering graduate with hands-on experience in data analysis and software development. Skilled in Microsoft Excel, SQL, Python, data cleaning, data analysis, and data visualization. Experienced in building interactive Excel dashboards and analyzing business data to identify trends and insights. Also experienced in React.js, REST APIs, and responsive web applications. Seeking a Data Analyst opportunity to apply analytical and technical skills to real-world datasets.

## TECHNICAL SKILLS

---

**Data Analytics:** Microsoft Excel, SQL, Python, Data Cleaning, Data Analysis, Data Visualization  
**Excel:** Pivot Tables, Pivot Charts, XLOOKUP, IF, SUMIFS, COUNTIFS, Data Cleaning, Dashboard Development  
**SQL:** MySQL, SELECT, WHERE, GROUP BY, Aggregate Functions, Joins, Subqueries  
**Python:** Python, Pandas, NumPy, Matplotlib  
**Frontend:** HTML5, CSS3, JavaScript ES6+, React.js, Tailwind CSS, Bootstrap  
**Programming:** Java  
**Tools:** Git, GitHub, VS Code, Vercel  
**Concepts:** Responsive Web Design, REST API Integration, Component-Based Architecture, Version Control, Debugging, Web Performance Optimization

## PROJECTS

---

### Grocery Sales Dashboard – Data Analytics Project

**Tool:** Microsoft Excel **GitHub:** [github.com/Aashish21072/Grocery-Sales-Dashboard](https://github.com/Aashish21072/Grocery-Sales-Dashboard)

- Built an interactive **Grocery Sales Dashboard** using 300 sales records to analyze sales performance and key business metrics.
- Performed **data cleaning and preparation** to organize sales data for analysis.
- Used **Pivot Tables, Pivot Charts, Excel formulas, and KPI cards** to analyze business performance.

- Analyzed sales by **category, product, state, brand, payment mode, sales channel, and month**.
- Created visualizations to identify **sales trends, top-performing products, and business performance**.
- Designed a business-friendly dashboard to present key insights clearly and support data-driven decision-making.

### **FoodieHub – Food Ordering Web Application**

**Technologies:** React.js, Redux Toolkit, Tailwind CSS, REST API

**Live Demo:** [foodie-hub-pi-seven.vercel.app](https://foodie-hub-pi-seven.vercel.app) — **GitHub:** [github.com/Aashish21072/FoodieHub](https://github.com/Aashish21072/FoodieHub)

- Built a responsive food ordering web application inspired by Swiggy and Zomato.
- Integrated REST APIs to dynamically fetch restaurant and menu data.
- Implemented search and filtering features to improve navigation and user experience.
- Designed reusable React components for scalable and modular architecture.

### **AI FusionChat – AI Chatbot with Multi AI Integration**

**Technologies:** React.js, CSS, Multiple AI APIs

**Live Demo:** [ai-fusion-chat.vercel.app](https://ai-fusion-chat.vercel.app) — **GitHub:** [github.com/Aashish21072/AIFusionChat](https://github.com/Aashish21072/AIFusionChat)

- Built an AI chatbot supporting multiple AI model integrations.
- Developed a responsive chat interface using React.js and CSS.
- Implemented dynamic AI switching and real-time API-based responses.
- Optimized application performance for better user experience.

## **CORE SKILLS**

---

Data Cleaning | Exploratory Data Analysis | SQL Querying | Excel Dashboards | Data Visualization | Analytical Thinking | Problem Solving | REST API Integration | Debugging | Version Control
